Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I am writing the FCC regarding the proposed partnership of Comcast and NBC Universal. Comcast has a strong record as a provider of good jobs and as a concerned corporate citizen in the New Castle, Pennsylvania area. I support this proposal and encourage the FCC to do the same.

Comcast is one of Pennsylvania's most important economic generators, not to mention one of Lawrence County's larger employers with a Service Center located in downtown New Castle. Many of our neighbors and friends in New Castle and the surrounding area work for Comcast and receive excellent salaries and benefits. Our community could use more employers like Comcast in the current challenging economy.

Comcast also supports our local businesses with top notch services and technology. Staying connected in our ever-expanding business environment is just as important in Lawrence County as it is in New York City. Comcast has made this possible for us and even provides our municipal building with courtesy broadband service.

Through its Comcast Cares Days events, the company has shown remarkable support for our community in 2008, 2009, and 2010. Comcast also supports some of our most important activities, including Grants for our Public Library, Adult Literacy Summer Reading Program and First Aid Courses.

As you consider this proposed partnership, I hope you will keep in mind the leadership and commitment Comcast has demonstrated in New Castle, Pennsylvania. I encourage the FCC to approve this proposal.

Sincerely,

Anthony G. Mastrangelo
Mayor
City of New Castle
